This is a double bred Peppy San Badger filly with a lot of ability. She is agile and good looking. I roped some on her sire before he was injured and really liked him, he was one of my favorite rides. These horses that have Peppy San Badger in their bloodlines typically have a lot of cow sense and speed to handle whatever task is at hand. Rod Smith of Post, TX is riding this colt and that is another plus. She has been started right and is ready to move forward. You could make a performance horse out of her or she would make a sweet mare to compliment your band of broodmares. For more info or to see her video, check out our website in April.

This filly is a cute palomino that has bloodlines to back up her looks. Her sire was an all-around horse, calf roping and team roping, and was making a nice cutting horse until an injury. He throws a lot of good characteristics in his colts. "Peppy" is even tempered and a pleasant riding horse and his colts have a lot of ability as well. Beauty Badger Girl is quick and agile and has a full brother that is one of the quickest horses I have team roped on. She will be a good colt to make a prospect out of or a wonderful addition for a broodmare.
